## Scarborough Historic Museum

### SRP AirOutshield™ SA 280

Self-adhered, water vapour permeable air barrier for rain screen walls and sloped roofing systems

Address: 1007 Brimley Rd, Toronto, ON

Completion: 2015

Architect: James Bailey Architect

General Contractor: Clifford Masonry

Installer: Dominion Roofing

### Application

- Sloped Roof system: Plywood roof sheathing, **SRP AirOutshield™ SA280** Membrane, (applied with no primer), battens for ventilation, cedar shingles
- **SRP AirOutshield™ SA280** provides a secondary drainage plane that allows water vapour to escape resulting in a roof assembly that remains dry and durable.
