

SRP Technical Bulletin SRP AirOutshield™

Vapor Permeable Air Barrier for Sloped Roofs and Rain Screen Wall Systems

Compatibility with self-adhered Mod Bit Membranes

SRP AirOutshield SA 280, WALL, ROOF and UV Membranes are compatible with self adhered mod bit membranes including Henry Blueskin SA, Blueskin TWF and similar products from ProtectoWrap, Grace, Soprema and other manufacturers.

Observe the following precautions when applying SRP membranes over, or under, self-adhered mod bit membranes. Install the mod bit membrane and SRP membrane in accordance with the manufacturers written instructions. Do not expose the SRP membrane to any primers, primer residues or solvents.
